The branch is ready!

Fasten off loose threads. Pin the branch in the middle and sew with a basting stitch on the bag, using the lino melange yarn.

HANDLES

Cut 2 straps of 55 cm with the stanley knife and the metal ruler.

Make 4 holes at the end of the handles with the hole puncher and hammer, use the plastic board underneath. I used the rough backside of the straps for a natural look.

Place the end of the handles 2,5 cm from the edge in the right position. Take a raw linen thread and split it. Take a lino melange thread, use the yarns together. (the raw linen yarn isn't strong enough, that's why you have to combine the yarns).

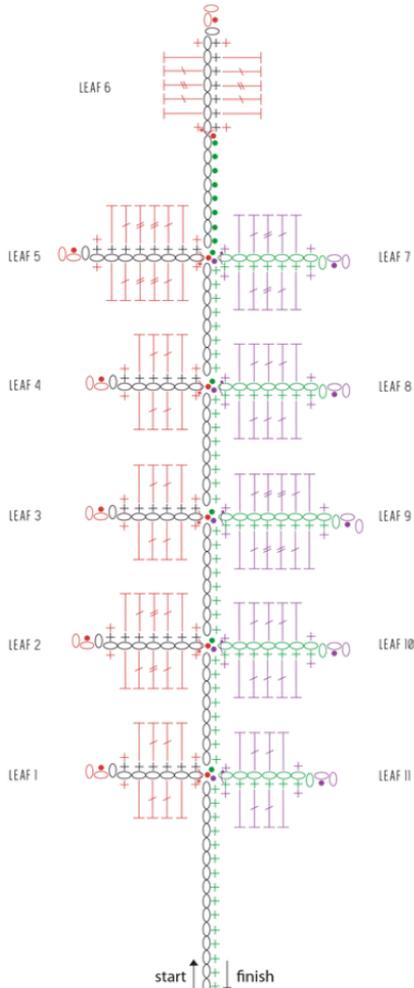

Sew the handles tight, in cross shape, on the bag. Make a double knot inside the bag and fasten off loose threads with the needle.

You can attach a leather (name) label on the bag, if you like.

*Your 'bag to nature' is ready! enjoy!
with love, Anique*
