

# Dalia Bolero

By Kimberley van Rijsbergen ~ @CraftlikeKim

## Material

400 g Dalia number 83 640 m  
 Crochet hook 6 mm  
 Scissors  
 Tape-measure  
 Sewing needle  
 Stitch markers

## Dalia

The yarn is made from 100% lyocell. Lyocell is made from an artificial fiber, woodpulp. This is a very environmentally friendly process as opposed to viscose. The yarn is soft but sturdy in structure.

## Method

This bolero is crocheted into one big piece. A square consists of 3 chainstitches, a cluster of 4 double crochet and a slipstitch to finish the cluster, 1 chainstitch and a single crochet to attach the square to the square of the previous row. There is also a diagram included for further pattern explanation.

After you have reached the right height of your piece, fold the piece vertically and sew the sides, to form small sleeves.

## Used stitches

chainstitch  
 slipstitch  
 single crochet  
 double crochet  
 Cluster of 4 unfinished double crochet

## Measurements

Wide 83 cm  
 Length 40 cm  
 The Dalia Bolero is crocheted in size Large.

## Pattern

Start with chaining 131 chainstitches.

**Row 1:** 1 single crochet in de seconde chainstitch of the previous row. 3 chainstitches (counts as one double crochet). In the third 1 unfinished double crochet, in the fourth, 1 unfinished double crochet, in the fifth 1 double crochet, in de sixth also 1 unfinished double crochet. Close with 1 slipstitch, chain one, and 1 single crochet in the seventh stitch. You have finished one square.

To continue, chain 3 (on top of the single crochet in the seventh stitch of the previous row), in the 8<sup>th</sup>, 9<sup>th</sup>, 10<sup>th</sup>, 11<sup>th</sup> stitch you continue to crochet 1 unfinished double crochet (this counts as one cluster). Finish the cluster with 1 slip stitch, chain 1 and secure the square in

the 12<sup>th</sup> stitch. Keep repeating this, till the end of the row and finish with 1 single crochet in the last stitch.

**Row 2:** Chain 4, secure with 1 single crochet on top of the cluster of the previous row. Chain 3 and crochet in to the chaining 3 of the previous row. Do not finish the double crochet and double crochet 3 more unfinished double crochet, secure the cluster with one slip stitch, chain 1 more and secure with 1 single crochet on top of the cluster of the previous row. Keep repeating this pattern until you reach the end of the row and finish with 1 double crochet in the last stitch.

Repeat row 1 and 2 until you have reached the right height. This pattern has a certain height of 40 cm. Fold the piece vertically and sew about 14 cm on both sides. As you can see on the pictures here on the left.
