INSTRUCTIONS:

Using 3mm circular needles with 80 cm cable, cast on 545 stitches using the method of provisional cast on. With the working yarn knit one row and then continue as follows:

Section 1

Work the "Candle Stitch" for 160 rows or anyway in order to reach a height of 40 cm.

Section 2, edge.

We are going to work an easy garter stitch edge in 4 parts with curly effect and picots.

Without cutting the working yarn work 10 rows in garter stitch increasing one stitch at every side with "kfb" in the second and in the second to last stitch.

Row 11 long side: bind off 6 stitches, work a picot, insert the needle on the next stitch but ten rows before and pull up a loop, knit it together with the first stitch on the left row and bind off. *bind off 9 stitches, work a picot, insert the needle on the next stitch but ten rows before and pull up a loop, knit it together with the first stitch on the left row and bind off*, repeat from* to* till 7 stitches from the end of the row, bind off the last 7 stitches.

Put again in work on the needle 115 stitches from the short side and work 10 rows in garter stitch increasing one stitch at every side with "kfb" in the second and in the second to last stitch.

Row 11 short side: bind off 6 stitches, work a picot, insert the needle on the next stitch but ten rows before and pull up a loop, knit it together with the first stitch on the left row and bind off. *bind off 10 stitches, work a picot, insert the needle on the next stitch but ten rows before and pull up a loop, knit it together with the first stitch on the left row and bind off*, repeat from* to* till 7 stitches from the end of the row, bind off the last 7 stitches.

Put again in work on the needle 545 stitches of the other long side and work as already explained for the long side, removing the provisional cast on.

Put again in work on the needle 115 stitches from the other short side and work them as explained above.

Cut the yarn and weave in the ends.

Wet and block it.
