With the working yarn cast on 3 stitches and knit them. Slip them back on the left needle, knit 2 stitches and then knit 2 stitches together through the back loop. From now on you will work all stitches of the circle. Slip every time back 3 stitches and then knit 2 stitches and knit 2 stitches together through the back loop.

Repeat this procedure till you finish all stitches of the circle. Close the remaining stitches together with the first three stitches you extra casted on.

Cut the yarn and weave in the ends.
